

Medi-Cal Certified Eligibles Data Table by County and Aid Code Group April 2020 (Dates Represented: December 2019)

Overview

The data table in this Excel workbook presents Medi-Cal certified eligibles for the December 2019 month of enrollment. The certified eligible counts reflect a 4-month reporting lag in order to accumulate the most complete datasets, while balancing the timeliness of data.

Table

This static data table includes counts of Medi-Cal certified eligibles by county as well as by four aid code groupings: (1) ACA Expansion Adult Age 19 to 64, (2) Parent/Caretaker Relative & Child, (3) Undocumented, and (4) Other.

Small Cell Suppression

All cells with values of less than 11 have been masked with "--" along with neighboring cells to protect beneficiary confidentiality.

Certified Eligible

The term *certified eligible* includes beneficiaries who have been determined eligible for Medi-Cal based on a valid eligibility determination. Certified eligibles do not include individuals who may be eligible, or are in the process of becoming a certified eligible, but have not received a valid eligibility determination. In addition, the definition used here only includes beneficiaries who are eligible to receive Medi-Cal-covered health care services during the month. This means that beneficiaries who must meet a Share of Cost (SOC), but have not met their monthly SOC, are not included in the counts.

Specific populations, such as California's Family PACT¹ members and individuals granted temporary enrollment under the Presumptive Eligibility (PE)² program for pregnancy, are excluded. However, individuals granted temporary enrollment under the other PE programs, most notably the Hospital Presumptive Eligibility (HPE) program, are included in the certified eligible counts.

Reporting Lag

The reported count of certified eligibles represents only a portion of that month's actual and final count. This is due to various adjustments that are made retroactively to the enrollment dataset as additional information is ascertained. Through the passage of time, the reported count for a particular month progressively moves closer to the actual final count. A specific month's enrollment count is considered nearly complete 6 months after the month's end and finalized 12 months after the month's end.

Consequently, enrollment counts for this report are considered INCOMPLETE and will continue to be updated.

²The Presumptive Eligibility (PE) program provides immediate, temporary Medi-Cal coverage for needed services to individuals deemed eligible by qualified entities. While previously available only to low-income pregnant women and children, the PE program in California has been expanded as of January 1, 2014 to include low-income adults ages 19-64 and parents and caretaker relatives, as well as former foster care children up to age 26 (no income limit).
